Digital SMEs In Scope

THE COMPLIANCE CHALLENGE

• **Massive Compliance Blind Spot:** Most businesses, SMEs & Startups have no visibility into whether their website, apps, or data practices meet DPDP requirements.

• **Traditional Consulting is Expensive & Slow:** Engagements cost INR 5-20L, take months, and are out of reach for early-stage companies.

• **No Automated DPDP-Specific Tools Exist:** Existing tools like OneTrust are GDPR-centric, enterprise-priced & do not map to India's DPDP Act.
